We offer seminars (virtually or in-person) to introduce your clients to small business lending concepts and help them prepare for financing. We tailor our presentations to you and your clients' needs.

When you have clients considering a small business loan, we will work with you and them to identify the best possible solution for their immediate needs. If and when they decide to apply with Thread, we keep you in the loop every step of the way so that you can continue to support your client during the application process and beyond.

We take time to ensure your clients are set up for success and well equipped to take on and support the loan. We will move as quickly as you can. On average, it takes 30 days to go from application to funding. The process may take less time if the applicant has the required financial documents ready.

But we don't stop there. We will have periodic checkins to see how your clients' businesses are doing and what else we can do to support you and them.

Our goal is to ensure that you and your clients are in a position to thrive and we want to provide you and them with the tools to do so. Reach out today to see how we can work together to support small businesses in North Carolina.
